SPEAKING OUR LANGUAGE

The Story of Australian English

Bruce Moore

For the first time ever the story of Australian English is about to be told in full. *Speaking Our Language* is written for people who want to know where Australian English came from, what the forces were that moulded it, why it takes its present form, and where it is going. The subtitle of this book, *The Story of Australian English*, derives in part from the chronological story that the book traces: the story begins with Joseph Banks and Captain James Cook in 1770, and it continues to the present day, when Australian English is firmly established as the natural and national language of Australia. It is a 'story' in another sense as well: the story of the development of Australian English is inextricably intertwined with the stories of Australian history and culture, and of the development of Australian identity.

PIPPY LONGSTOCKING WITH LIMITED EDITION PRINTS

Astrid Lindgren, illustrated by Lauren Child

A true children's classic! Now available in a lavish, full colour gift edition illustrated by Lauren Child. Four illustrations have been made into limited edition prints and are packaged with the book. Pippi Longstocking is nine and lives by herself with a horse, a monkey, and a suitcase full of gold coins. The grown-ups in the village want Pippi to behave in ways that they think a little girl should,

but Pippi would much rather spend her days arranging wild, exciting adventures, or entertaining everyone she meets with her outrageous stories.

LANGUAGE

txtng: the gr8 db8

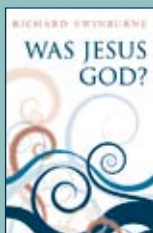

David Crystal

This book looks at the text-messaging phenomenon and its effects on literacy, language, and society. Does texting spell the end of literacy? David Crystal investigates how texting began and who uses it, why and what for. He shows how to interpret its mix of abbreviations, symbols, and wordplay, and how it works in different languages. He explores the ways similar devices have been used in different eras and he concludes that far from hindering literacy, texting may turn out to help it.

PHILOSOPHY

WAS JESUS GOD?

Richard Swinburne

Richard Swinburne, one of the world's leading philosophers, offers the strongest arguments yet for Christian doctrine. He explains the central beliefs of Christianity, and argues that it is probable that they are true. In particular, he shows that there is strong philosophical support for the belief that Jesus, while remaining God, acquired a human nature and lived on earth for thirty years as a human being. Clearly and powerfully written, this book is accessible to readers with no previous training in philosophy or religious studies.

LITERATURE

FRENCH TALES

Edited by Helen Constantine

This collection of twenty-two translated stories treats readers to a panoramic view of French society and culture. The subject-matter ranges from stories about marriage, World War I and homelessness to house-buying, childhood and honour-killing, and each story is illustrated with a striking photograph. This book will appeal to people who love travelling as much as to those who love France and things French.

AENEID
Virgil

One of the greatest works of literature in any language. Written by the Roman poet Virgil more than two thousand years ago, the story of Aeneas' seven-year journey from the ruins of Troy to Italy is a narrative on an epic scale. Frederick Ahl's new translation echoes the Virgilian hexameter in a thrillingly accurate and engaging style. An Introduction by Elaine Fantham, and Ahl's comprehensive notes and invaluable indexed glossary complement the translation.

OUTLINES OF THE PHILOSOPHY OF RIGHT
G.W.F. Hegel

One of the greatest works of moral, social, and political philosophy. It contains significant ideas on justice, moral responsibility, family life, economic activity, and the political structure of the state. Hegel's study remains one of the most subtle and perceptive accounts of freedom that we possess. This edition combines a revised translation with a cogent introduction

to his work.

THE TWO GENTLEMEN OF VERONA
William Shakespeare

The Two Gentlemen of Verona is believed to be Shakespeare's earliest surviving play. A wide-ranging introduction explores the lyrical language with which Shakespeare dramatizes competing kinds of love. On-page commentary and notes explain language, word-play, and staging. This is the only edition to provide a setting of the song 'Who is Silvia?', taken from an Elizabethan source. Illustrated with production photographs and related art,

this is the only edition to provide a complete text for performance.

SELECTED LETTERS
Cicero

Cicero lived through some of the most turbulent years in the history of Rome. His letters to friends and family are an astonishingly detailed record of daily life and politics in Rome. This selection, covering the years 68-43 BC provides a month-by-month record of the final collapse of the Roman senatorial government. In P. G. Walsh's lively new translation, Cicero's correspondence once more brings alive the excitement and

danger of ancient Rome.

VERY SHORT INTRODUCTIONS

NELSON MANDELA
A Very Short Introduction
Elleke Boehmer

Nelson Mandela has become an exemplary figure of non-racialism and democracy. This *Very Short Introduction* explores the reasons why his story is so important to us, and what his achievements signify. It shows how our picture of Mandela is a great deal more complicated than the legend suggests: quality of character is combined with his talents as a performer, his steely survival skills,

and his postmodern ease with media image.

Einstein's theory of relativity shattered the world of physics - replacing Newtonian ideas of space and time with bizarre and counterintuitive conclusions: a world of slowing clocks and stretched space. This *Very Short Introduction* explores and explains the theory in an accessible and understandable way. It also shows how relativity isn't just applicable to abstract physics, but also has applications in everyday technologies such as GPS.
