Health Sciences

2019

Welcome to the Oxford University Press ANZ Health Sciences catalogue for 2019!

Oxford University Press is a department of the University of Oxford. We share the University's belief in the transformative power of education to inspire progress and realise human potential. We are committed to publishing high quality, trusted textbooks to support students in becoming confident professionals in their chosen health-care setting. These textbooks carefully balance theory with practice-based clinical skills that students can use throughout their course and then take with them into the workforce.

At Oxford University Press we work hard to develop resources that will enable students to study more effectively, academics to teach more easily, and institutions to offer more support. Our textbooks are designed to support your students throughout their studies, and our digital products are created to suit different study and teaching requirements.

These digital products include:

- Oxford VitalSource eBooks that are available perpetually or for rent
- VitalSource Sampling which gives academics access to gratis Oxford VitalSource eBooks at the click of a button
- Student resources that allow students to test their understanding of key principles with additional online study materials
- Lecturer resources that support your prescribed textbook and assist you in your teaching.

Throughout this catalogue, the resources available for each title are indicated by the icon in the key below.

We are dedicated to providing students, academics and institutions with premium resources and we hope this catalogue will assist you in finding your teaching solution.

Field Education: Creating Successful Placements

Edited by Fiona Gardner, Jacqui Theobald, Natasha Long, & Helen Hickson

9780190310059

October 2018

oup.com.au/gardner

Field Education: Creating Successful Placements aims to support students of social work field education subjects by ensuring students have access to quality learning experiences. Successful completion of these subjects complies with the Australian Association of Social Workers (AASW) requirements for accreditation as a social worker. This book looks at what makes a successful placement from four different perspectives – lecturer, field educator, liaison person and student – helping to better prepare students for the rigours of social work and human services work. It encourages integrating theory with practice and provides an insight into the diverse organisations and practitioners involved in field education.

Key Features

- Strong focus on the student voice – select chapters are written by recently graduated students
- Perspectives from the four key field education players – lecturer, field educator, liaison person, and student
- The wealth of contributors represent the diverse practitioners involved in field education, including those from indigenous and culturally diverse backgrounds
- Vignettes are provided throughout each chapter, providing students with case examples from the field
- Critical reflection points are attached to each case study to encourage deeper thinking
- Tips in the student chapters provide insight into actions which may be disconcerting and advice on how to overcome them
- Margin notes link to other related areas in the book.

Table of Contents

Introduction: Reflecting critically on successful field education

PART 1: Creating Successful Social Work Placements: Setting the Scene

PART 2: Getting Started: Clarifying Roles and Expectations

PART 3: Navigating Challenges During Placement

PART 4: Stepping Out of Your Comfort Zone

PART 5: Actively Engaging with Diversity

PART 6: Managing Transitions: Finishing Your Placement

Health Sciences

Second Opinion: An Introduction to Health Sociology

Sixth Edition

Edited by John Germov

9780190306489

October 2018

oup.com.au/germov6e

Second Opinion: An Introduction to Health Sociology, sixth edition, is the leading health sociology textbook for Australian students. Accompanied by comprehensive online resources with innovative teaching and learning materials, this outstanding teaching text introduces students to the theories, concepts, issues, and contexts of health sociology.

New to this Edition

- New chapters
 - 11 – Young People's Health
 - 12 – The Social Determinants of Obesity
 - 18 – Health and Medical Technology
- Chapter introductory vignettes encourage a sociologically reflexive approach
- Doing Health Sociology boxes link theory to practice as well as highlight sociological research and theories for informing health care practice, health policy, and public understanding of the social origins of health and illness
- Pause and Reflect questions have been integrated to assist in students' understanding of the content
- Up-to-date documentaries and films that relate to chapter themes.

Table of Contents

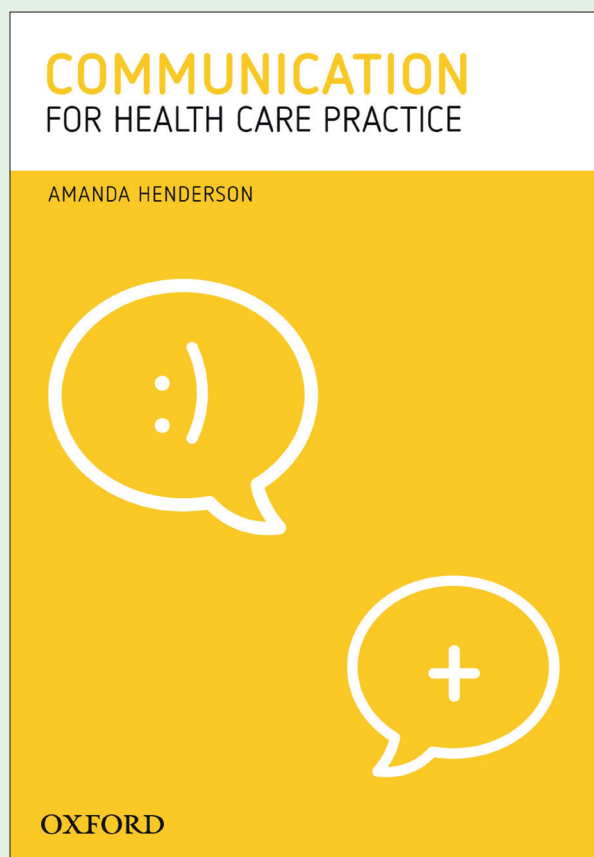

PART 1: Health Sociology and the Social Model of Health

PART 2: The Social Production and Distribution of Health and Illness

PART 3: The Social Construction of Health and Illness

PART 4: The Social Organisation of Health Care: Professions, Politics and Policies

Communication for Health Care Practice

Amanda Henderson

9780195596762

October 2018

oup.com.au/hendersonhealth

Communication for Health Care Practice aims to develop useful communication skills so students can become confident communicators in a professional health care setting. It focuses on client-oriented communication strategies that advance client well-being while also developing students' appreciation of the diversity and complexity of communication in health care organisations (including communication with professional and regulatory systems). This concise, contemporary handbook offers practical advice about how to engage and interact in a productive manner. Quality communication leads to better health outcomes and ultimately a positive experience for clients and health professionals.

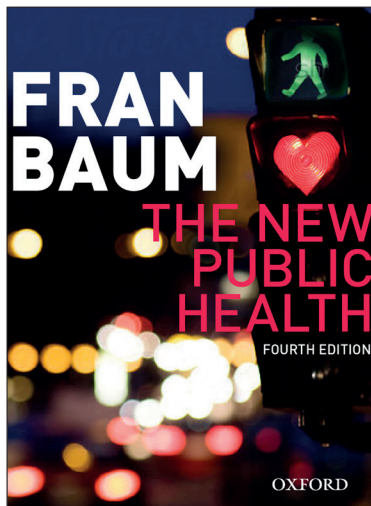

Key Features

- Learning objectives at the start of each chapter highlight key aspects of the chapter
- Key terms explain important terminology such as acronyms and abbreviations
- Tips throughout each chapter help students focus on important practice behaviours and how to apply these when on clinical placement
- Case scenarios help structure students' thinking and prepare them for deeper reflection
- Boxed sections provide snapshots of policy and regulations
- 'Consolidate your learning' at the end of each chapter offers a range of activities to reinforce the content covered.

Table of Contents

1. The important elements of communication
2. The significance of communication for quality outcomes for clients
3. The stakeholders in health care contexts: Clients, significant others, health professionals, and professional and regulatory agencies
4. How communication is conducted in health care: Modes, scripts and approaches
5. Managing myself for meaningful communication
6. Effective communication with clients, families and significant others
7. Productive communication within and between health professional disciplines and teams, and regulatory bodies
8. Communication for leveraging and leading quality health care outcomes

Health Sciences

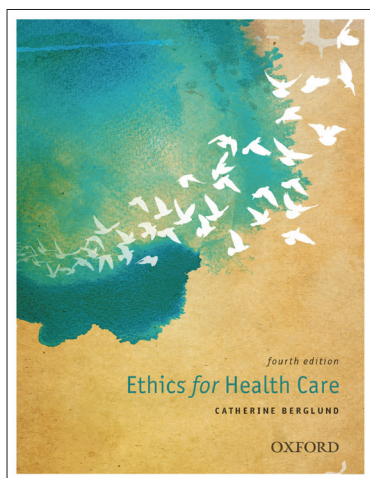

The New Public Health

Fourth Edition
Fran Baum
9780195588088
December 2015
oup.com.au/baum4e

The fourth edition of Fran Baum's *The New Public Health* is the most authoritative resource available on the new public health. It offers readers the opportunity to gain a sense of the scope of the new public health visions, and combines theoretical and practical material to help readers understand the social and economic determinants of health.

Ethics for Health Care

Fourth Edition
Catherine Berglund
9780195519570
July 2012
oup.com.au/berglund4e

Ethics for Health Care encourages students to develop their skills in ethical reasoning, and shows techniques for dealing effectively with contemporary ethics issues faced by professionals in the everyday health care setting. It is clearly written, using a 'treatment sequence' approach, and contains pedagogical aids throughout, which make the language and concepts of ethics easier to grasp.

Healthy Ageing and Aged Care

Edited by Maree Bernoth & Denise Winkler
9780195597585
November 2016
oup.com.au/bernoth

Healthy Ageing and Aged Care takes an inter-disciplinary approach to supporting older people within the community and in care. It represents current Australian and New Zealand policies and practices, takes a holistic view of the older person, and emphasises the positive aspects of the ageing process, maintaining that people age in healthy ways and continue to be an integral part of their families and communities.

Health Sciences

The Australian Health Care System

Fifth Edition

Stephen Duckett & Sharon Willcox

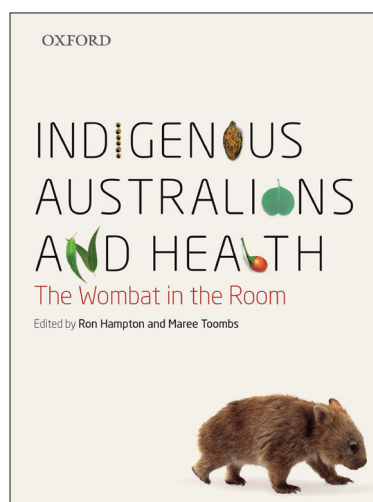

9780195596403

October 2015

oup.com.au/duckett5e

The Australian Health Care System, fifth edition, is a comprehensive and forward-looking overview of the structure and operation of health systems and services in Australia. It analyses how the inputs of Australian health services, such as finances, the health workforce, and the roles of state and federal government influence the outcomes, which range from consumer confidence to policy changes.

Indigenous Australians and Health: The Wombat in the Room

Edited by Ron Hampton & Maree Toombs

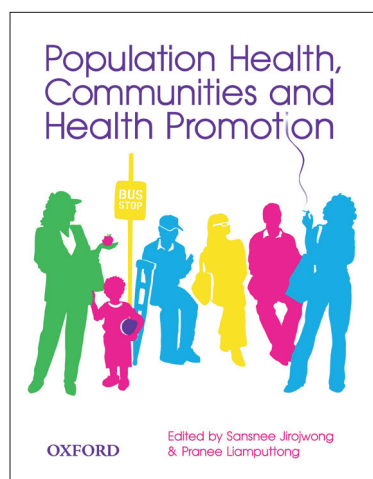

9780195519624

September 2013

oup.com.au/hampton

Indigenous Australians and Health assists the reader, through simple and practical strategies, to appreciate the importance of 'getting it right' when working with Aboriginal and Torres Strait Islander Australians. By promoting awareness of culturally-based issues, which can impact on access and response to clinical health services, this book works to close the gap between the wider Australian community and Indigenous Australians in health outcomes and life expectancy.

Population Health, Communities and Health Promotion

Edited by Sansnee Jirojwong & Pranee Liamputtong

9780195560558

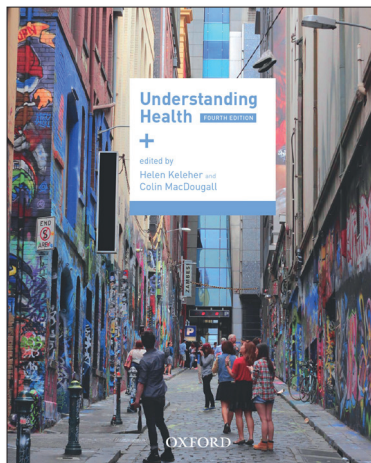

October 2008

oup.com.au/jirojwong

Following the process of doing a community based health promotion project, this book shows how to progress from thinking about and assessing the health needs of a community to how to plan, implement, and evaluate a health promotion project. Using real world case studies and examples, the text provides students with an introduction to community health within a population health and health promotion framework, and explains how these areas work together in practice.

Health Sciences

Understanding Health

Fourth Edition

Edited by Helen Keleher & Colin MacDougall

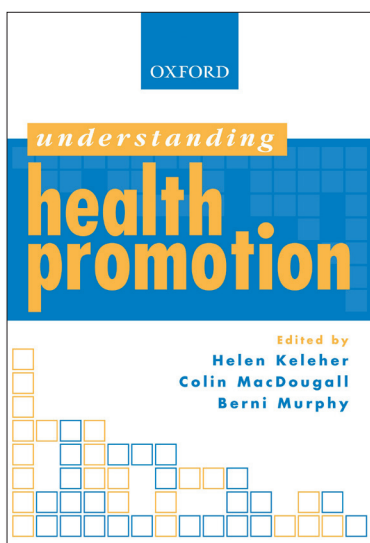

9780195597417

November 2015

oup.com.au/keleher4e

Understanding Health, fourth edition, introduces students to all of the key health disciplines, examining public health, health promotion, social determinants of health and primary health care as a means of achieving greater fairness, social justice and health equity. It provides an update of important new developments in determinants thinking and adds new material on how to take action on the social determinants of health.

Understanding Health Promotion

Edited by Helen Keleher, Colin MacDougall, & Berni Murphy

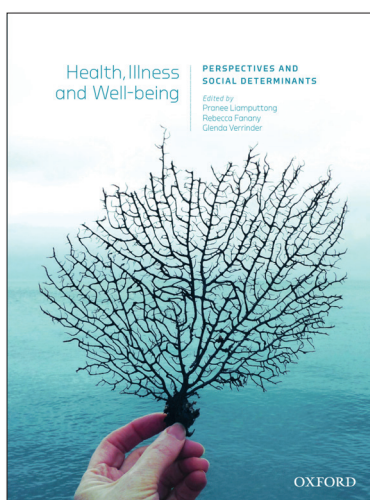

9780195552942

February 2007

oup.com.au/keleher

Informed by principles of equity and the social determinants of health, *Understanding Health Promotion* draws on the authors' research to focus on strategic approaches to health promotion practice. It considers health promotion from the perspective of different sectors of society, and reviews the expertise required of health promotion practitioners in the context of healthy public policy and strategic health promotion program planning and evaluation.

Health, Illness and Well-being: Perspectives and Social Determinants

Edited by Pranee Liamputtong, Rebecca Fanany, & Glenda Verrinder

9780195576122

January 2012

oup.com.au/liamputtong

Health, Illness and Well-being: Perspectives and Social Determinants introduces students to the important ideas that underlie the field of public health today. Written for beginning students, it provides an overview of the forces and trends that combine to shape the health of individuals, communities, and populations, within a conceptual framework of determinants of health.

Health Sciences

Mental Health in Australia: Collaborative Community Practice

Third Edition

Graham Meadows, John Farhall, Ellie Fossey, Margaret Grigg,
Fiona McDermott, & Bruce Singh

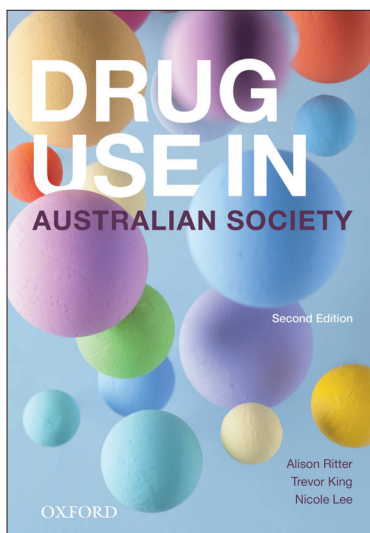

9780195574883

October 2012

oup.com.au/meadows3e

Mental Health in Australia, third edition, is the go-to reference on mental health for students, academics and practitioners. With a new four part structure, the book thoroughly covers the current context of mental health, clinical practice principles, and the assessment and management of mental health disorders. Taking a cross-disciplinary approach, *Mental Health in Australia* reflects a wide range of opinions and perspectives in the field of mental health care. This approach also allows the text to be used throughout a degree and into professional practice. Authoritative and up-to-date, *Mental Health in Australia* is the most comprehensive Australian book on mental health in the market.

Drug Use in Australian Society

Second Edition

Alison Ritter, Trevor King, & Nicole Lee

9780190306458

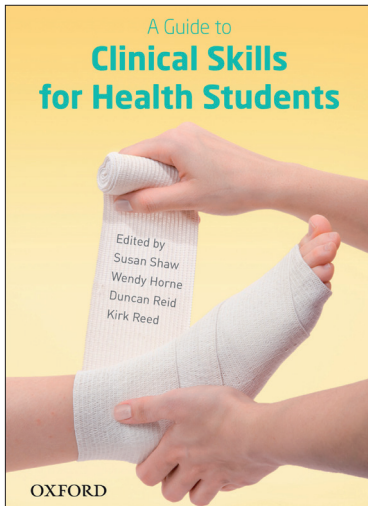

October 2017

oup.com.au/ritter2e

Drug Use in Australian Society, second edition, brings together and outlines all the relevant concepts, theories and practices pertinent to understanding alcohol and other drug use in Australian society. It introduces the history of drug use in Australian society, outlines theoretical perspectives and explores public policy responses to drug use. It also has a focus on drug policy in action by exploring responses to prevention, treatment, legal issues, regulation and policing.

Health Sciences

A Guide to Clinical Skills for Health Students

Edited by Susan Shaw, Wendy Horne, Duncan Reid, & Kirk Reed

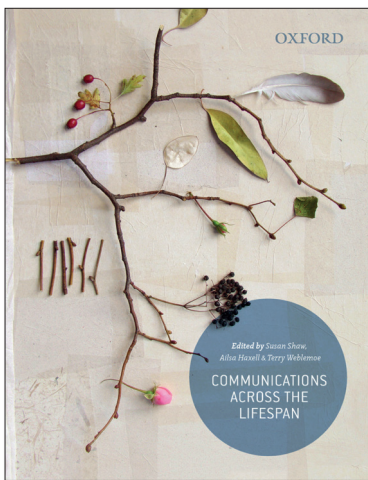

9780190304263

January 2017

oup.com.au/shaw

The learning of clinical skills is an important part of health professional education and often one of the most stressful and confusing elements of the student journey. *A Guide to Clinical Skills for Health Students* is designed to be a trusted guidebook for students in Aotearoa New Zealand studying across a range of clinical health degrees. This book outlines the context of professional practice, summarises key skills, presents supporting information about relevant practice, identifies references to guide further learning, and provides tools for recording clinical learning and professional development. At its heart is a focus on people, and the role that health professionals play in delivering quality assessment and care.

Communications Across the Lifespan

Edited by Susan Shaw, Ailsa Haxell, & Terry Weblemoe

9780195585148

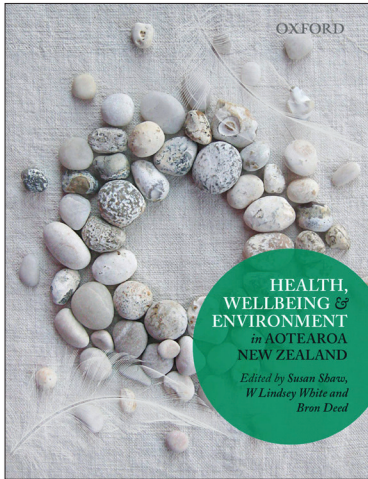

February 2012

oup.com.au/shawlife

Communications Across the Lifespan combines communication and lifespan development, in order to equip students entering health, disability and related fields with the skills they need to engage effectively with people of all ages and life experiences. The book gives a sound introduction to the essential concepts of therapeutic communication across the lifespan within the New Zealand environment, and is informed by current issues and debate, designed to encourage critical thinking and reflection. Health and wellness issues are covered from the perspectives of patients and professionals which enable students to hear what patients say and to explore their own lived experience of health and illness.

Health Sciences

Health, Wellbeing & Environment in Aotearoa New Zealand

Edited by Susan Shaw, W. Lindsey White, & Bron Deed

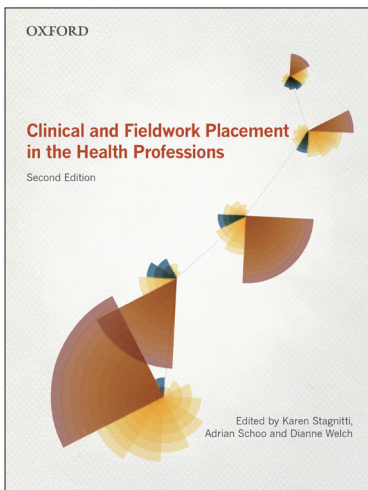

9780195585216

December 2012

oup.com.au/shawnz

Health, Wellbeing & Environment in Aotearoa New Zealand provides students and professionals with a sound introduction to the concepts of health and wellbeing within the New Zealand environment. The book is informed by current issues and debate, examines the cultural, political, social and environmental contexts of health, and is written to foster critical thinking and analysis.

Clinical and Fieldwork Placement in the Health Professions

Second Edition

Edited by Karen Stagnitti, Adrian Schoo, & Dianne Welch

9780195519600

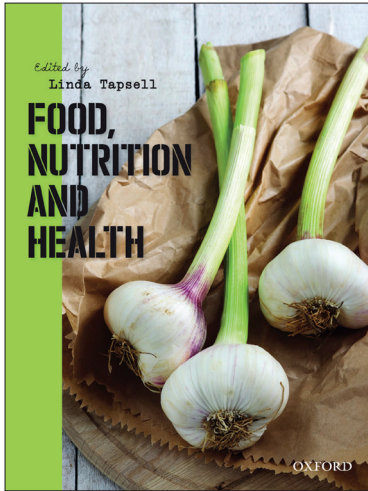

April 2013

oup.com.au/stagnitti2e

Part 1 covers broader issues such as getting ready for placement, your role, rights and responsibilities, supervision, assessment and working in teams. Part 2 provides information on a variety of clinical fieldwork placement settings, and how to prepare for each. Part 3 helps you transition from student to fieldwork educator and includes information about recruiting students back to your workplace.

Health Sciences

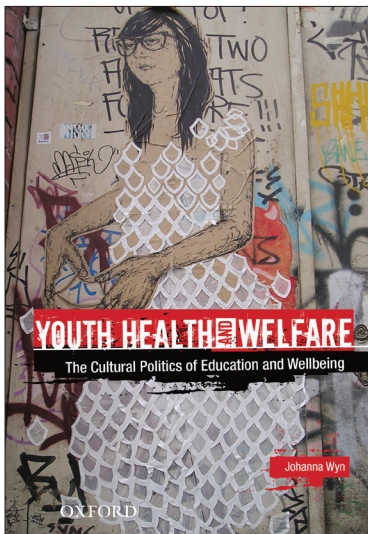

Food, Nutrition and Health

Edited by Linda Tapsell
9780195518344
September 2013
oup.com.au/tapsell

Food, Nutrition and Health takes a holistic approach to the study of food, nutrition, and the lifecycle. It canvases the full spectrum of issues relevant to food, nutrition, and health, while providing a clear framework for understanding and working with nutrition science by gradually building up a knowledge base and setting it in practice contexts. Key concepts are introduced early then built upon in more detail: a fruitful pedagogical approach that develops knowledge, fosters research skills, and encourages critical thinking.

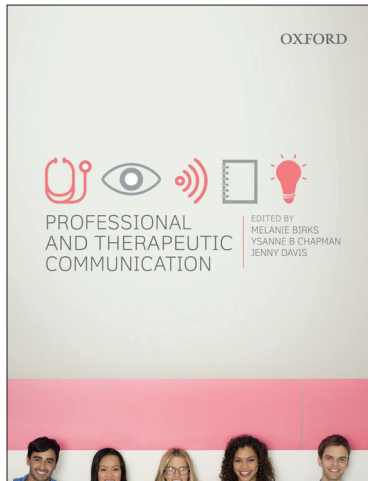

Youth Health and Welfare: The Cultural Politics of Education and Wellbeing

Johanna Wyn
9780195560466
December 2008
oup.com.au/wyn

Youth Health and Welfare meets the demand for a critical, policy and practice-oriented inter-disciplinary perspective on the changing nature of young people's lives and how this affects their health and wellbeing. This book provides a lively, research-based and critical approach to young people's health and wellbeing in contemporary society, drawing on the latest research from a variety of Australian and international sources.

Nursing

Professional and Therapeutic Communication

Edited by Melanie Birks, Ysanne B. Chapman, & Jenny Davis

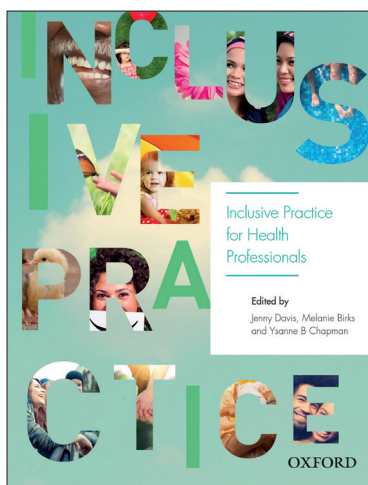

9780195591064

November 2015

oup.com.au/birks

Professional and Therapeutic Communication focuses on all aspects of interpersonal interaction that are essential to safe, high quality healthcare. It takes a practical approach to concepts fundamental to both the communication and therapeutic elements of the caring relationship and helps students develop essential skills for effectively communicating with clients, consumers, and colleagues across a broad range of settings.

Inclusive Practice for Health Professionals

Edited by Jenny Davis, Melanie Birks, & Ysanne B. Chapman

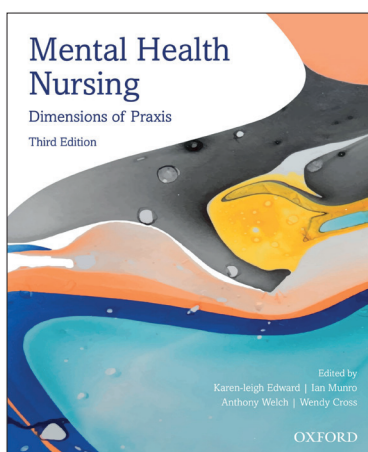

9780195593952

November 2015

oup.com.au/davispractice

Inclusive Practice for Health Professionals equips students with knowledge of the social, political, and cultural factors that influence health care in Australia, to prepare them to be well informed, considerate health professionals. It embraces the multidisciplinary nature of work in the health professions, and applies the term 'inclusive practice' to focus attention on its relevance to all healthcare professionals and improving health outcomes.

Mental Health Nursing: Dimensions of Praxis

Third Edition

Edited by Karen-leigh Edward, Ian Munro, Anthony Welch, & Wendy Cross

9780190305222

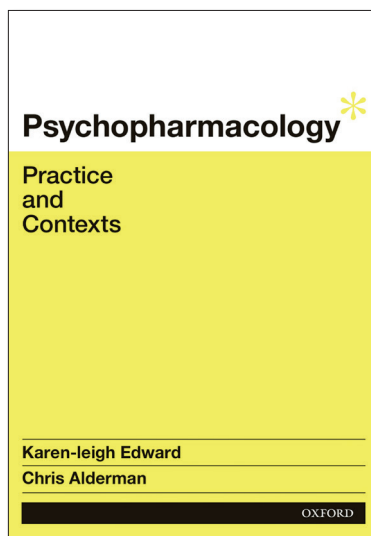

January 2018

oup.com.au/edward3e

Mental Health Nursing: Dimensions of Praxis, third edition, prepares student nurses by equipping them with innovative skills and essential knowledge for their mental health careers. It shows how to apply assessment processes to treatment practice, work with clients with a range of disorders, and apply nursing intervention strategies in order to achieve best practice outcomes.

Nursing

Psychopharmacology: Practice and Contexts

Karen-leigh Edward & Chris Alderman

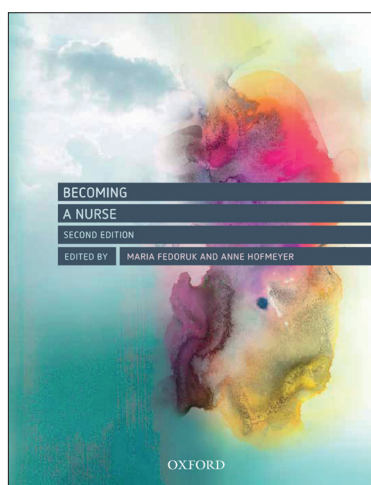

9780195519631

May 2013

oup.com.au/edward

Psychopharmacology: Practice and Contexts is a practical and accessible text to assist nursing and allied health students in their understanding of psychotropic medications. It covers treatment monitoring through a range of care plans and interventions and provides strategies for minimising risk. The text is designed to allow readers to develop insight into the great variability in the ways in which individuals experience mental health disorders, and the equally variable fashion in which each person has the potential to experience both benefit and harm as a result of drug treatment.

Becoming a Nurse

Second Edition

Edited by Maria Fedoruk & Anne Hofmeyer

9780195588729

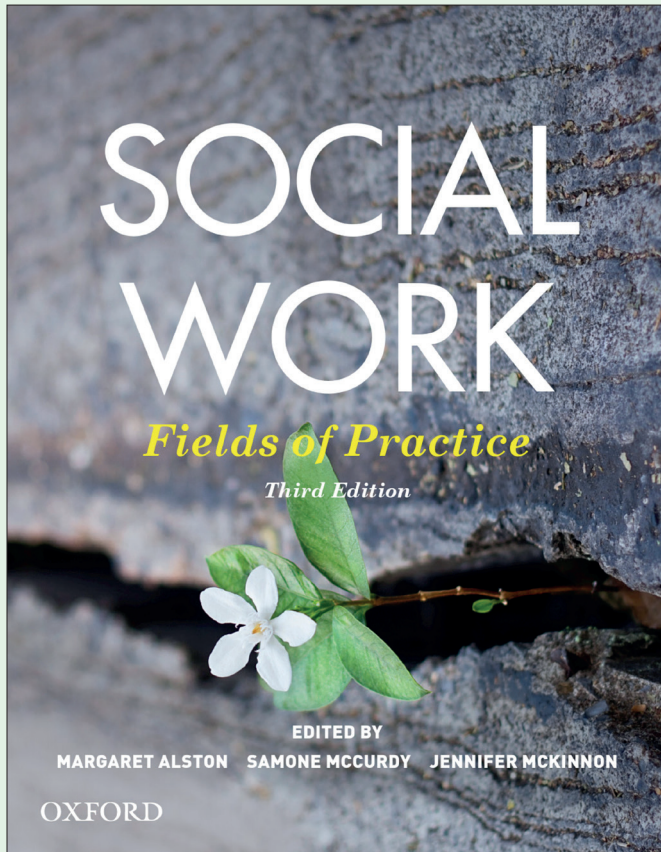

November 2014

oup.com.au/fedoruk2e

Becoming a Nurse is a clear and concise introduction to the contexts of the contemporary nursing environment. The second edition takes an evidence-based approach to equip student nurses with the core knowledge and skills necessary for their undergraduate program and clinical placement, and to take into their careers. Written with everyday, accessible language and a systematic structure, *Becoming a Nurse* covers key topics in nursing including the Australian healthcare system, communication technologies, leadership and evidence-based practice. Each chapter is rich with features to support student learning and competency development, and has been updated throughout to include the latest references and research in nursing.

Social Work and Human Services

Social Work: Fields of Practice

Third Edition

Edited by Margaret Alston, Samone McCurdy,
& Jennifer McKinnon

9780190309879

June 2018

oup.com.au/alston3e

Social Work: Fields of Practice, third edition, takes the form of a conversation with students by experts in the field. The chapters gradually unfold to cover many of the fields of practice a social worker is likely to encounter while working in the field. Short, concise chapters allow students and lecturers a flexible approach to learning and teaching as they move through the book in an order that suits them. The book begins by examining groups social workers may work with across the various fields and then explains the fields of practice by drawing on the experience and practice wisdom of each chapter author. It covers the eight core fields of practice mandatory for students to achieve accreditation, before addressing additional new and emerging fields in social work. *Social Work: Fields of Practice* provides an excellent grounding for social work students and ensures that they are well prepared for work in the social work field.

Key Features

- A high profile team of three lead authors and 25 contributors – all specialists in their field with a wealth of experience
- Covers the eight core fields of practice mandatory for students to achieve accreditation into the social work profession (as determined by AASW)
- Addresses a wide range of fields of practice including the social work priority areas of Cultural Diversity, Indigenous Australians, Child Protection, and Mental Health
- Chapter objectives appear at the start of every chapter, outlining the key themes discussed in the chapter
- Key terms appear at the start of each chapter and research boxes explain the field of practice through data and research details
- Case studies provide either clinical or real-world examples engaging students in day-to-day practice
- Review questions and further reading suggestions are at the end of each chapter.

Table of Contents

Context of Contemporary Social Work Practice

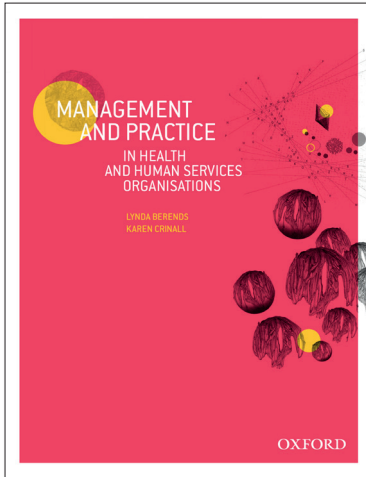

PART 1: Working with Particular Groups and Communities of Interest

PART 2: Social Work Practice Settings

PART 3: Niche Social Work Practice Fields

PART 4: Emerging Trends and Issues in Social Work

Social Work and Human Services

Management and Practice in Health and Human Services Organisations

Lynda Berends & Karen Crinall

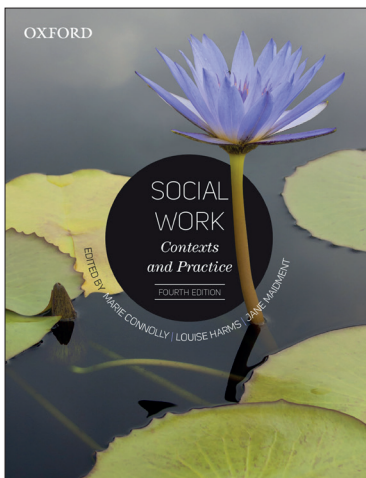

9780195524154

May 2014

oup.com.au/berends

Management and Practice in Health and Human Services Organisations helps students, leaders, and practitioners build a comprehensive foundation of the knowledge, skills, and attributes required for effective service delivery and organisational success. This book addresses key policy, planning, and process issues, and explores innovative strategies for good management and leadership in health and human service organisations. With the perfect blend of theory and practice, this book is an authoritative and accessible resource for both aspiring and current managers.

Social Work: Contexts and Practice

Fourth Edition

Edited by Marie Connolly, Louise Harms, & Jane Maidment

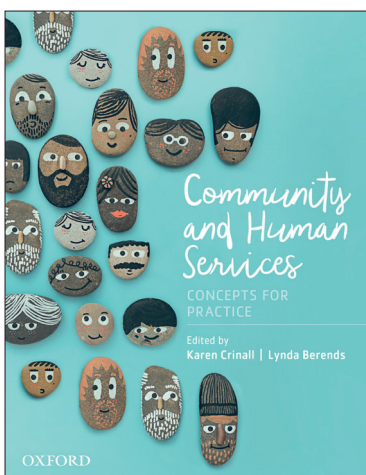

9780190308728

October 2017

oup.com.au/connolly4e

Social Work: Contexts and Practice is a practical introduction to the issues currently faced in social work practice. The fourth edition has been thoroughly revised to more effectively guide students through the diverse issues faced by social workers in the field and provide them with the practice skills they need to join them.

Community and Human Services: Concepts for Practice

Edited by Karen Crinall & Lynda Berends

9780190302917

October 2017

oup.com.au/crinallberends

Community and Human Services: Concepts for Practice offers an introduction to the key concepts, theories and perspectives of community and human services in Australia. It outlines the more challenging and emerging fields of practice to prepare students for practice in a range of helping professions and illustrate the real-life situations they may encounter with clients.

Social Work and Human Services

Working with Human Service Organisations

Second Edition

Fiona Gardner

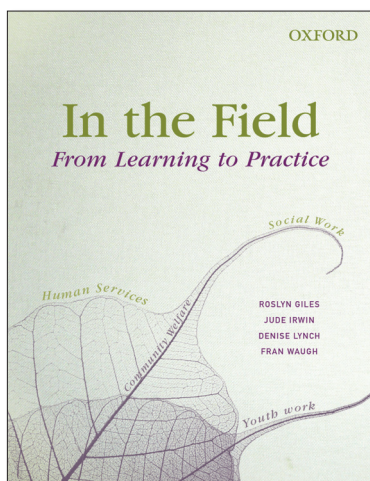

9780190303235

August 2016

oup.com.au/gardner2e

Working with Human Service Organisations teaches students to find a balance between working with clients and their employing agency. It will show students how to constructively, collaboratively and ethically engage within the organisational structure by providing them with the tools to advocate for professional values. This edition includes an interdisciplinary introduction to working effectively with employing agencies.

In the Field: From Learning to Practice

Roslyn Giles, Jude Irwin, Denise Lynch, & Fran Waugh

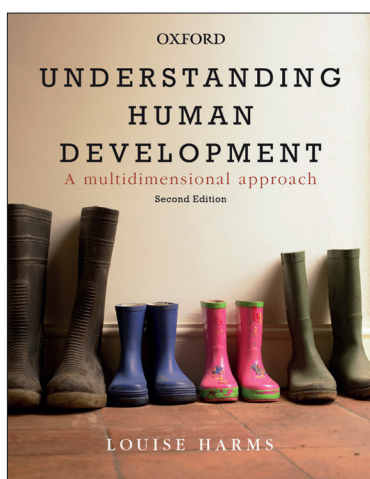

9780195567014

October 2010

oup.com.au/giles

In the Field explores both the theories and 'how to' of practice learning so that students get the most out of the field placement experience. It provides all the relevant information combined with practical activities and examples to allow them to apply their knowledge in a real life setting. The text also tackles the different challenges that are encountered in the field placement, helping students to gain skills that can be used throughout their careers in the human services.

Understanding Human Development: A Multidimensional Approach

Second Edition

Louise Harms

9780195551556

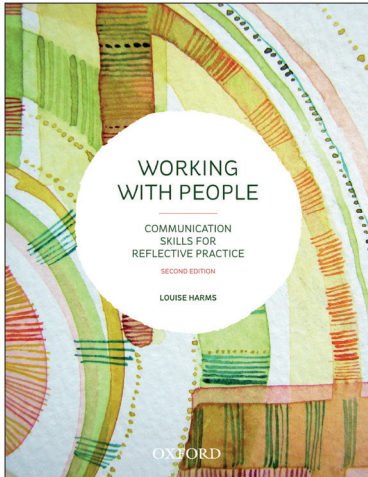

September 2010

oup.com.au/harmsunderstanding

Understanding Human Development focuses on the impact that communication has on others. Its overview of frequently-utilised skills of interpersonal communication and interviewing draws upon research and practice literature in relation to 'microskills' to understand the critical decisions or choices which are made by using these skills. The book takes a multidimensional approach to understanding the complexities of personal experience.

Social Work and Human Services

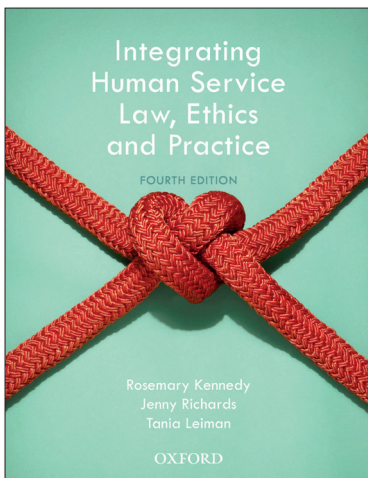

Working with People: Communication Skills for Reflective Practice

Second Edition
Louise Harms
9780195522280
November 2015
oup.com.au/harms2e

Social workers are committed to making a difference at individual and structural levels. We listen and respond to the unique stories of each person, family, group, or community. For this reason, good communication skills are fundamental to engaging and working with others about their needs and rights. *Working with People* explores the place and challenges of communication, interviewing, and counselling skills within social work and human service practice.

Integrating Human Service Law, Ethics and Practice

Fourth Edition
Rosemary Kennedy, Jenny Richards, & Tania Leiman
9780190302726
August 2016
oup.com.au/kennedy4e

An introduction to the law for human services, the fourth edition of *Integrating Human Service Law, Ethics and Practice* offers an overview of the legal processes encountered in practice. The text offers an accessible discussion of law and ethics to provide students with an understanding of the Australian legal landscape and an understanding of human service ethics.

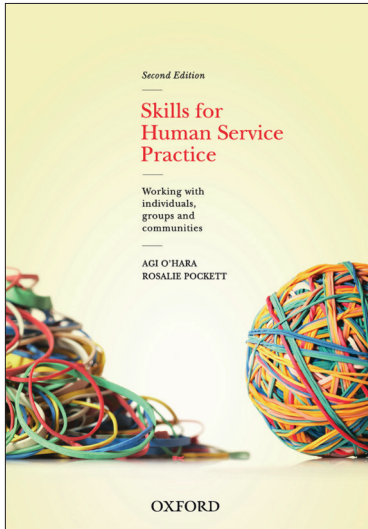

Case Management: Inclusive Community Practice

Second Edition
Edited by Elizabeth Moore
9780190303198
November 2016
oup.com.au/moore2e

Case Management: Inclusive Community Practice is a consumer-directed social work text that provides health and human services workers with the theory, knowledge, and skills to help the vulnerable. The second edition offers a strong in-depth overview of case management using case studies and reflective questions to teach readers to relate theory to practical situations.

Social Work and Human Services

Skills for Human Service Practice: Working with Individuals, Groups and Communities

Second Edition

Agi O'Hara & Rosalie Pockett

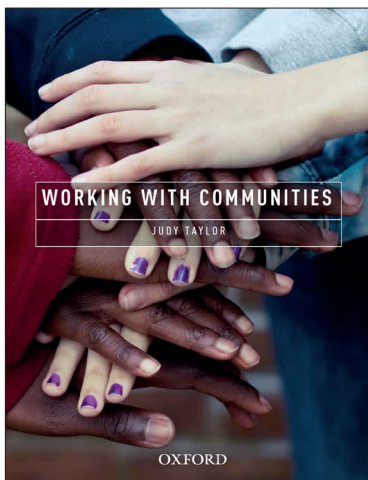

9780195562859

November 2011

oup.com.au/ohara2e

Skills for Human Service Practice covers all the skills and theoretical frameworks that beginning practitioners and students in human services need. It encourages a critical reflective perspective to help students mindfully reflect on their practice, and deal with the difficulties that they will encounter in their practice. It lays out the theories and frameworks and then looks at specific skill sets in light of these frameworks and theories.

Working with Communities

Judy Taylor

9780195588750

November 2015

oup.com.au/taylor

Working with Communities explores critical ideas about community work and associated concepts such as social inclusion, social capital, community participation, community capacity building, and community partnerships. It provides students with theoretical and conceptual knowledge of community work with strong links to current practice through case studies, practitioner perspectives, and discussions about skills.

Psychology

Ethical Practice in Applied Psychology

Christopher Boyle & Nicholas Gamble

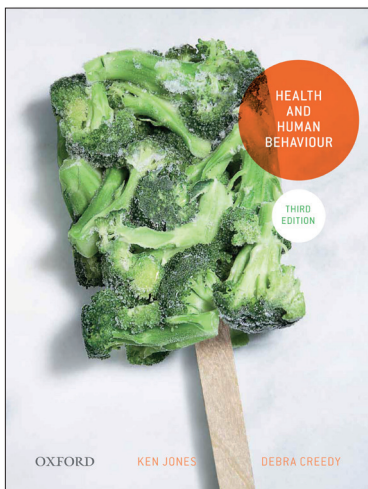

9780195523102

May 2014

oup.com.au/boyle

Ethical Practice in Applied Psychology helps prepare Australian students for registration through an exploration of ethical principles, providing the basis for psychological practice. Written to align with the Australian Psychological Society's Code of Ethics, this book offers a clear and accessible explanation of the Code and its subsequent guidelines. Case studies throughout help students learn how to apply the Code to real scenarios, provide a theoretical context to ethical situations, and provoke discussion of issues relating to ethical dilemmas.

Health and Human Behaviour

Third Edition

Ken Jones & Debra Creedy

9780195577259

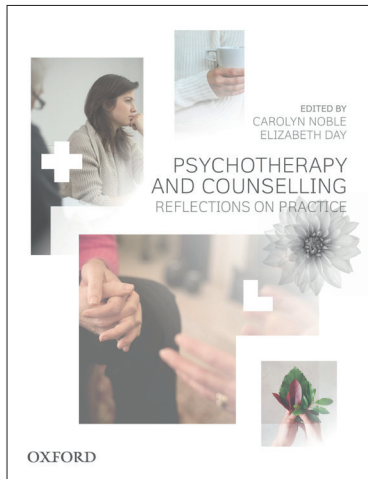

October 2012

oup.com.au/jones3e

The third edition of *Health and Human Behaviour* introduces students in the health professions and biomedical sciences to the different models of thinking around health. Through an examination of psychological, personal and social influences on health, the authors demonstrate that wellness and illness are more than biological states, but are also social and personal events.

Psychology

Psychotherapy and Counselling: Reflections on Practice

Edited by Carolyn Noble & Elizabeth Day

9780190300685

November 2015

oup.com.au/noble

Psychotherapy and Counselling: Reflections on Practice provides a balance of engaging, in-depth stories and case studies from the inside of therapy. Representing the key practice modality sections of the Psychotherapy and Counselling Federation of Australia, the book explores examples from a range of therapeutic practices, grounded in the theoretical and evidence frameworks of the modality or approach and supported by clear and authoritative commentary.

Psychological Testing and Assessment

Third Edition

David Shum, John O'Gorman, Peter Creed, & Brett Myers

9780190305208

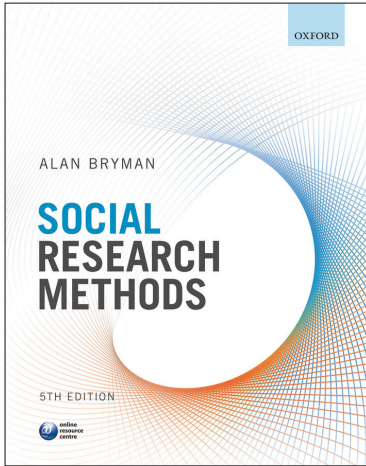

June 2017

oup.com.au/shum3e

Psychological Testing and Assessment is a comprehensive introduction to theory, research, and best practice for psychological testing and assessment. The text examines the principles and practice within an Australian context, provides varied examples, discusses local issues, and addresses the Australian Psychological Society's Code of Ethics.

Research Methods and Reference

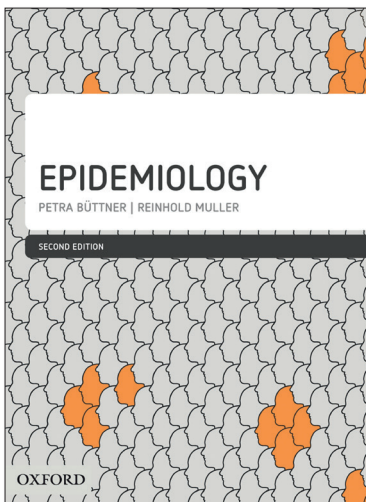

Social Research Methods

Fifth Edition
Alan Bryman
9780199689453
December 2015
oup.com.au/brymansrm5e

This best-selling introduction to research methods provides students and researchers with unrivalled coverage of both quantitative and qualitative methods, making it invaluable for anyone embarking on social research. Bridging the gap between theory and practice, *Social Research Methods* is packed full of engaging examples and practical tips to equip students with the tools and knowledge needed for them to complete their own research projects. In addition to providing practical advice, Bryman deftly explores the nature of social research and the wider issues impinging on it.

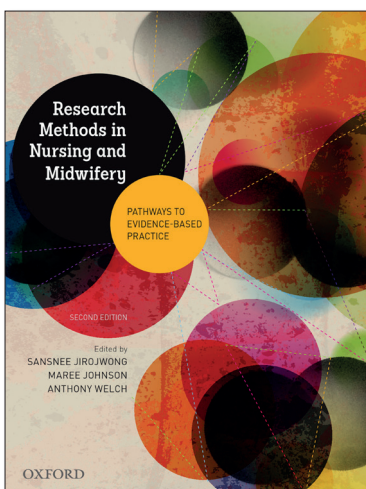

Epidemiology

Second Edition
Petra Büttner & Reinhold Muller
9780195597318
October 2015
oup.com.au/buettner2e

Epidemiology, second edition, is a methodological and practical guide to conducting evidence-based quantitative research in all health sciences. With a multidisciplinary focus, it integrates a wealth of case studies and examples to demonstrate the application of theory to real-life research and draws from a broad spectrum of health disciplines.

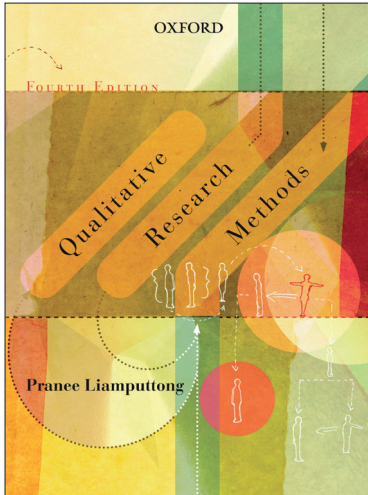

Research Methods in Nursing and Midwifery: Pathways to Evidence-based Practice

Second Edition
Edited by Sansnee Jirojwong, Maree Johnson, & Anthony Welch
9780195528510
October 2014
oup.com.au/jirojwong2e

Research Methods in Nursing and Midwifery is a clear introduction to the principles used in research and systematic reviews for evidence-based practice. Beginning with the foundations of the research process, each chapter builds upon knowledge to cover specific research methods, populations, sampling, data collection, and analysis.

Research Methods and Reference

Qualitative Research Methods

Fourth Edition
Pranee Liamputtong
9780195518559
November 2012
oup.com.au/liamputtong4e

Qualitative Research Methods, fourth edition, provides an accessible, practical guide to conducting and analysing qualitative research. This multidisciplinary text uses relevant and engaging examples to explain methodological issues, and shows how to use established, innovative and complex methods of research effectively.

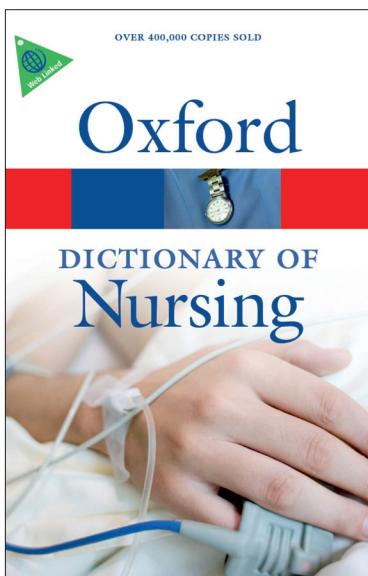

Research Methods in Health: Foundations for Evidence-based Practice

Third Edition
Edited by Pranee Liamputtong
9780190304300
November 2016
oup.com.au/liamputtong3e

Research Methods in Health, third edition, is an introductory text that shows students different research techniques and how they are of value to the health professions. The text assumes no prior knowledge and is written in an appealing, accessible style using examples to demonstrate the relevance and practical application of research to health care practice.

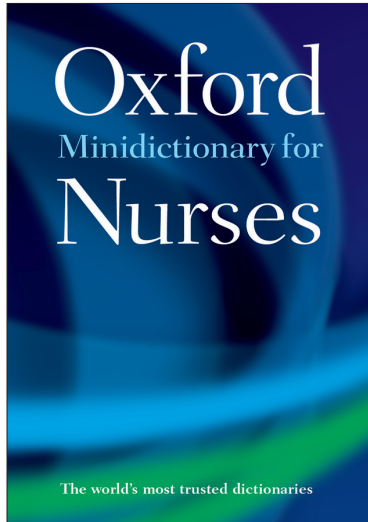

Oxford Dictionary of Nursing

Seventh Edition
Edited by Elizabeth A. Martin
9780198788454
May 2017
oup.com.au/odn7e

Written by medical and nursing specialists, and offering more than 10,300 clear and concise entries on the theory and practice of nursing, this dictionary provides comprehensive coverage of the ever-expanding vocabulary of the nursing professions. As well as nursing-specific terms, there are also many entries in the fields of medicine, anatomy, physiology, ethics, psychiatry, nutrition, statistics, and pharmacology.

Research Methods and Reference

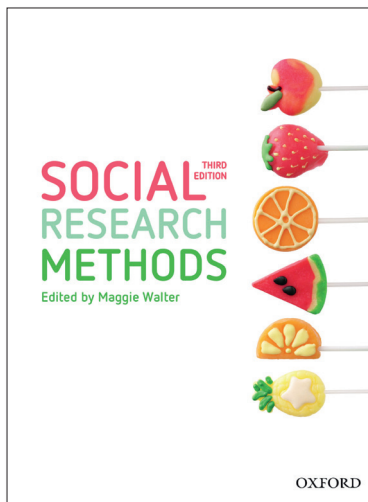

Oxford Minidictionary for Nurses

Seventh Edition
Edited by Elizabeth A. Martin
9780198788461
June 2017
oup.com.au/nursesmini7e

Written by medical and nursing specialists, and offering more than 10,300 clear and concise entries on the theory and practice of nursing, this dictionary provides comprehensive coverage of the ever-expanding vocabulary of the nursing professions. Social Research Methods

Third Edition
Edited by Maggie Walter
9780195520170
October 2013
oup.com.au/walter3e

Social Research Methods, third edition, brings social research to life for students, using both theory and practical examples to illustrate the relevance of research methods in their future careers. It equips students with the tools required to develop a clear understanding of the nature of research and to gain an appreciation of the wide range of methods available.

Evidence-based Health Practice

Edited by Valerie Wright-St Clair, Duncan Reid, Susan Shaw,
& Joanne Ramsbotham
9780195585230
May 2014
oup.com.au/wrightstclair

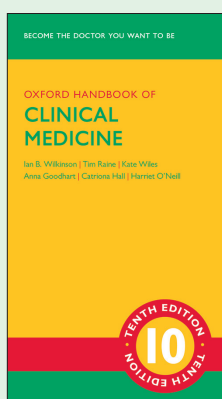

Research is one of the subjects that students in the health professions often find challenging and yet the process of finding, critiquing, using, and evaluating information is essential to professional development and practice. This book introduces fundamental research concepts that are relevant to the wider health-care and disability support sector while also making strong connections to the various areas of practice that students identify with.

Communication and Skills

Smart Thinking: Skills for Critical Understanding and Writing

Second Edition
Matthew Allen
9780195524055
November 2012
oup.com.au/allen2e

Smart Thinking, second edition, is a practical, step-by-step guide to improving skills in analysis, critical thinking, and the effective communication of arguments and explanations. It combines an accessible and straightforward style with a strong foundation of knowledge. This edition treats reasoning as an aspect of communication, not as an abstract exercise in logic, and demonstrates how these skills can be used in research and writing.

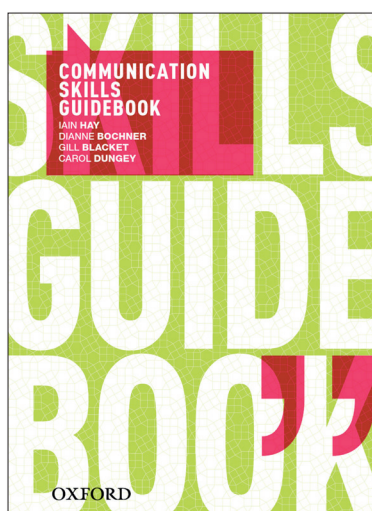

Maths Skills for Success at University

Kathy Brady & Tiffany Winn
9780190302931
October 2017
oup.com.au/brady

Maths Skills for Success at University is an easy-to-use guide for students to prepare themselves for the essential mathematics skills they need to succeed at university. A comprehensive reference and revision guide, this book is full of Australian examples, preparing students for the maths they will encounter in their everyday life and while studying.

Communication and Skills

Making the Grade: A Guide to Successful Communication and Study

Fourth Edition

Iain Hay, Dianne Bochner, Gill Blacket, & Carol Dungey

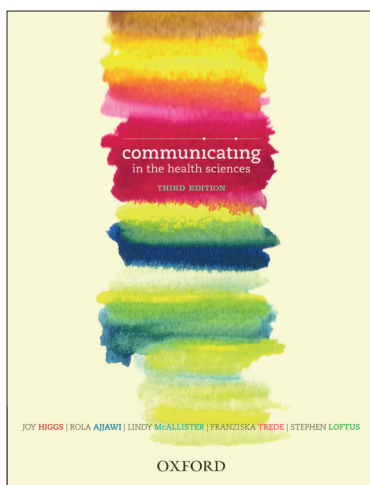

9780195576085

June 2012

oup.com.au/hay4e

This book is a practical guide for students, full of the essential communication and study skills that will help them 'make the grade'. Covering all the skills that will be used across a degree, the book begins with listening skills, efficient time management, and working effectively with a team, and takes students right through their course to the best tips for taking exams.

Communicating in the Health Sciences

Third Edition

Joy Higgs, Rola Ajjawi, Lindy McAllister, Franziska Trede, & Stephen Loftus

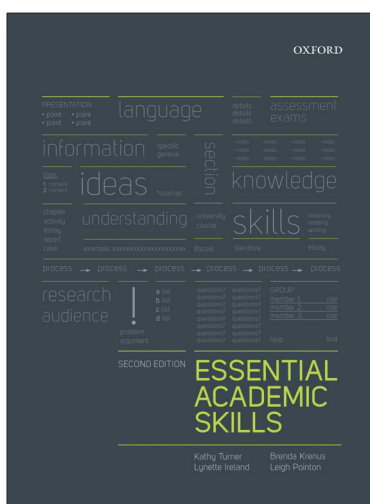

9780195579048

September 2012

oup.com.au/higgs3e

Communicating in the Health Sciences introduces students to the nature and importance of communication in the health sciences, with comprehensive coverage of all the written, electronic, visual, and interpersonal communication skills essential for professions in the health sciences. This new edition has been completely restructured with a more logical flow, building skills and giving students the best access to information.

Essential Academic Skills

Second Edition

Kathy Turner, Lynette Ireland, Brenda Krenus, & Leigh Pointon

9780195576054

September 2011

oup.com.au/turner2e

Essential Academic Skills encourages and supports students to develop their skills to become the best learners they can be. It takes a step-by-step approach to the essential skills required to complete a university degree and provides comprehensive learning support through examples and activities.

Oxford Digital Solutions

Is inclusive access the answer?

Oxford University Press can help you provide your students with immediate digital access to quality, peer-reviewed resources from their first day of class.

We can tailor delivery to suit the needs of your institution and assist with training so you can make the most of inclusive access.

Find out more at **oup.com.au/digitalsolutions** or contact our Partnerships Executive, Jess Howard.

Value Packs:

If one book doesn't have everything for your course, we can package several together to ensure your students are getting the resources they need. For example, we can provide a communication skills book with a public health textbook or an academic skills book packaged with an introduction to social work textbook.

We always provide our packs at a discount to students to ensure they get more book for their buck!

Custom Publications:

Haven't found a book that's right for your course?

Try an Oxford custom publication. You can select any locally produced Oxford content to bundle into a book to suit your needs. Custom publications can be made available in paperback and/or as an eBook*.

If you would like to learn more about this option, please contact your Sales and Learning Resource Consultant and they can suggest a range of content to get you started.

**Please note, minimum enrolment numbers apply.*
