

Online Training Subscription

We have made films about everything we do, from how to teach Speed Sounds to setting up the best book corners.

You can now have access to our content all year round, for staff training, practice sessions, staff meetings and preparation at home.

Our new blended package combines the online training subscription with face-to-face training.

Online Training Subscription

ONLINE TRAINING SUBSCRIPTION FAQs

What are the benefits of the Blended Training Package?

- Staff can access all our latest training films – more are added to the subscription throughout the year
- Schools can start online training at any time (they don't need to wait until their next pupil free day)
- All staff can access training throughout the year in bite-size chunks to practise, revisit and prepare for teaching new groups
- Schools can send home the right YouTube films matched to the sounds they are learning in school
- New staff won't need to attend central training

Our school already uses *Read Write Inc.*, do we need to book support from trainers?

Yes. Trainers make the biggest difference to children's progress, even in our very established schools. We do, however, offer a reduced package that includes the Online Training subscription with a one-hour remote session – to help you make the best use of the films – and one (or more) Development Days.

Can the *Read Write Inc. Phonics Online Training* subscription be booked separately?

No. Schools adopting *Read Write Inc. Phonics* commit to whole school implementation. Trainer support is vital for its success. Our trainers have extensive experience in galvanising and supporting leaders and teachers to ensure *Read Write Inc.* works for every child – whatever their background or needs.

Can the Virtual Classroom (i.e. YouTube lesson films) be booked on its own?

No. Our Virtual Classroom is one part of the Online Training subscription. *Read Write Inc. Phonics* is a full comprehensive literacy programme: its strength lies in its application of our phonics lessons to reading and writing. To make the Virtual Classroom films available separately would be like selling a car with an ignition and no engine!

Can I book the *Read Write Inc. Phonics Online Training* subscription for just a few members of staff?

No. Schools adopting *Read Write Inc. Phonics* commit to whole school implementation. However, Fast Track Tutoring Online will be available in November for schools who choose not to commit to a whole-school approach to the teaching of reading.

I am a parent/carer, what support can I access?

Please visit [this page](#) for more information about the support we offer parents and carers.

If we opt for the Blended Training Package with the Online Training subscription, do we still need a face-to-face training day?

This depends on how familiar your school is with *Read Write Inc.* We do recommend that *new* schools book at least one face-to-face training day.

Our trainers are skilled at galvanizing leaders and teachers to put the teaching of reading at the heart of the school. They also set up the necessary habits for practice and coaching.

Is the Blended Training package (including the Online Training subscription) suitable for schools with SEND (Special Educational Needs and Disability) children?

Yes. The trainer will discuss tailoring activities to meet the needs of all children. The subscription comes with access to Special School practice films, and schools can also choose to book a bespoke face-to-face training day.

Is there any difference content between the 2-day face-to-face Phonics training and the online training?

There is no difference. The subscription includes both Day 1 (Speed Sounds lessons) and Day 2 (Storybook lessons) of training, plus additional films for continued professional development.
