Curriculum..... viii

CHAPTER 1
SCIENCE
TOOLKIT 1

1.1 Science is the study of the natural and physical world 2
1.2 Scientists use specialised equipment 4
1.3 Scientists take safety precautions 6
1.4 Scientists use observation and inference to answer questions 8
1.5 Science relies on measuring with accuracy 10
1.6 A Bunsen burner is an essential piece of laboratory equipment 14
1.7 A fair test is a controlled experiment 16
1.8 Graphs and tables are used to show results 18
1.9 Scientific reports communicate findings 22
1.10 Science skills are used to solve important problems 24
1.11 Aboriginal and Torres Strait Islander Peoples use science 26
Review 1 28

CHAPTER 2
PARTICLE MODEL ...31

2.1 There are three states of matter 32
2.2 Scientists' understanding of matter has developed over thousands of years 36
2.3 The particle model explains matter 38
2.4 The particle model can explain the properties of matter 40
2.5 Increasing kinetic energy in matter causes it to expand 42
2.6 Scientists find ways to communicate 44
Review 2 46

CHAPTER 3
MIXTURES 49

3.1 Mixtures are a combination of two or more substances 50
3.2 A solution is a solute dissolved in a solvent 52
3.3 Mixtures can be separated according to their properties 54
3.4 Mixtures can be separated according to their size and mass 56
3.5 The boiling points of liquids can be used to separate mixtures 58
3.6 Solubility can be used to separate mixtures 60
3.7 Waste water is a mixture that can be separated 62
3.8 Materials recovery facilities separate mixtures 64
Review 3 66

CHAPTER 4
WATER 69

4.1 Water cycles through the environment 70
4.2 Factors in nature affect the water cycle 72
4.3 Human management affects the water cycle 74
4.4 Water is a precious resource 78
Review 4 80

CHAPTER 5
RESOURCES 83

5.1 Resources on Earth take different times to renew 84
5.2 Easily renewable resources can be quickly replaced 86
5.3 Easily renewable resources can be harnessed to provide energy 88
5.4 Some resources are limited .. 92
5.5 Soil is one of our most valuable resources 94
5.6 Our future depends on careful management of resources 96
5.7 Green jobs will increase in the future 98
Review 5 100

CHAPTER 6
EARTH, SUN AND
MOON 103

6.1 The Earth, Sun and Moon interact with one another..... 104
6.2 The Moon reflects the Sun's light..... 106
6.3 Seasons are caused by the tilt of the Earth 108
6.4 Astronomers explore space 112
Review 6 116

CHAPTER 7
CLASSIFICATION 119

7.1 Classification organises our world..... 120
7.2 Living organisms have characteristics in common.. 122
7.3 Classification keys are visual tools..... 126
7.4 The classification system continues to change 128
7.5 All organisms can be divided into five kingdoms 130
7.6 Animals that have no skeleton are called invertebrates..... 132
7.7 Vertebrates can be organised into five classes 134
7.8 Plants can be classified according to their characteristics..... 136
7.9 The first Australian scientists classified their environment..... 136
7.10 Taxonomists classify new species 140
Review 7 142

CHAPTER 8
INTERACTIONS
BETWEEN
ORGANISMS 145

8.1 All organisms are interdependent 146
8.2 All organisms have a role in an ecosystem..... 148
8.3 Food webs can be disrupted 150
8.4 Human activity can affect local habitats 152

8.5 Environments can be responsibly managed 154
8.6 Modern land managers use traditional Indigenous techniques..... 156
Review 8 158

CHAPTER 9
FORCES 161

9.1 A force is a push, a pull or a twist..... 162
9.2 An unbalanced force causes change 164
9.3 Forces can be contact or non-contact..... 166
9.4 Magnetic fields can apply a force from a distance..... 168
9.5 Electrostatic forces are non-contact forces 170
9.6 Earth's gravity pulls objects to the centre of the Earth..... 172
9.7 The Moon's gravity causes tidal movements 174
9.8 Friction slows down moving objects..... 176
9.9 Simple machines decrease the amount of effort needed to do work..... 178
9.10 A pulley changes the size or direction of a force 182
9.11 There are different types of machines..... 184
9.12 Seatbelts and safety helmets save lives 186
9.13 Forces are involved in sport 188
Review 9 190

CHAPTER 10
