

CHAPTER 1
SCIENCE TOOLKIT ... 1

1.1 Scientists can test manufacturers’ claims2

1.2 Scientists must be aware of experimental errors.....6

1.3 Scientists prepare Safety Data Sheets..... 10

1.4 Scientists present their data accurately..... 12

1.5 Scientists investigate consumer products (SHE)..... 14

Chapter 1 review..... 16

CHAPTER 2
ECOSYSTEMS 19

2.1 All living things are dependent on each other and the environment around them20

2.2 Relationships between organisms may be beneficial or detrimental 22

2.3 Population size depends on abiotic and biotic factors..... 26

2.4 Introducing a new species may disrupt the balance in an ecosystem 28

2.5 Energy enters the ecosystem through photosynthesis30

2.6 Energy flows through an ecosystem 32

2.7 Matter is recycled in ecosystems34

2.8 Natural events can disrupt an ecosystem 36

2.9 Human activity can disrupt an ecosystem 38

2.10 Human management of ecosystems continues to change (SHE).....40

Chapter 2 review..... 42

CHAPTER 3
CONTROL AND REGULATION.....45

3.1 Receptors detect stimuli 46

3.2 Nerve cells are called neurons...50

3.3 The nervous system controls reflexes..... 52

3.4 The nervous system controls our body.....54

3.5 Things can go wrong with the nervous system56

3.6 The endocrine system causes long-lasting effects.....58

3.7 Homeostasis regulates through negative feedback..... 60

3.8 Hormones are used in sport (SHE)..... 64

3.9 Pathogens cause disease (SHE)..... 66

3.10 The immune system protects our body in an organised way 68

3.11 Things can go wrong with the immune system70

Chapter 3 review..... 72

CHAPTER 4
TECTONIC PLATES75

4.1 Is the Earth shrinking or moving? 76

4.2 The Earth has a solid core..... 78

4.3 Boundaries between the tectonic plates can be converging, diverging or transforming.....80

4.4 Tectonic plates can be constructive or destructive ...84

4.5 What will the Earth look like in the future?.....86

Chapter 4 review.....88

CHAPTER 5
MATTER..... 91

5.1 All matter is made up of atoms..... 92

5.2 Atoms are made of subatomic particles 94

5.3 Atoms have mass 96

5.4 Electrons are arranged in shells..... 98

5.5 Ions have more or less electrons 100

5.6 Isotopes have more or less neutrons..... 102

5.7 Isotopes can release alpha, beta or gamma radiation 104

5.8 The half-life of isotopes can be used to tell the time..... 106

5.9 Radiation is used in medicine (SHE) 108

Chapter 5 review..... 110

CHAPTER 6
CHEMICAL REACTION 113

6.1 Endothermic reactions absorb energy from the surroundings. Exothermic reactions release energy..... 114

6.2 Acids have a low pH. Bases have a high pH116

6.3 Acids can neutralise bases ...118

6.4 Acids react with metals to produce hydrogen and a salt 120

6.5 Metals and non-metals react with oxygen 122

6.6 Fuels are essential to Australian society (SHE) 124

Chapter 6 review..... 126

CHAPTER 7
ELECTRICITY..... 129

7.1 Electricity is the presence and flow of electric charges 130

7.2 Electric current results from the movement of charges around a closed circuit 132

7.3 Current can flow through series and parallel circuits 134

7.4 Voltage is the difference in energy between two parts of a circuit. Resistance makes it difficult for current to flow in a circuit..... 136

7.5 Diodes restrict current to one direction. Resistance in a circuit can be altered by light or temperature..... 138

Chapter 7 Review..... 140

CHAPTER 8
ELECTROMAGNETISM..... 143

8.1 Wires carrying an electric current generate a magnetic field 144

8.2 Electricity and magnets are used to produce movement 146

8.3 Magnetic fields and movement are used to generate electricity. 148

8.4 Electromagnetic fields are used in technology and medicine (SHE)150

Chapter 8 review..... 152

CHAPTER 9
EXPERIMENTS 155

STEAM..... xxx

Glossary..... 232
